ENCLOSURE A (Cont'd)

SECRET/SECURITY INFORMATION

Legend

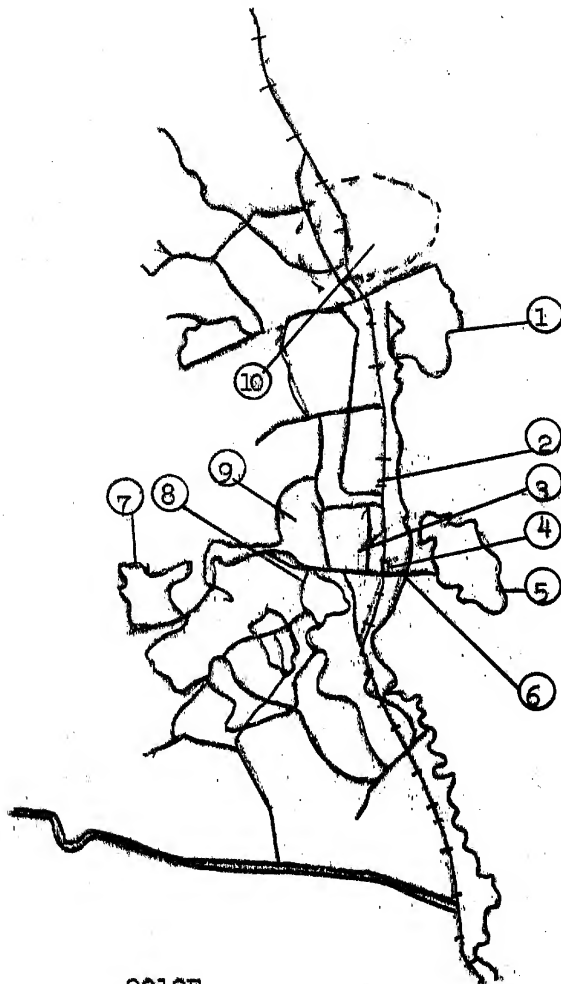

1. Railroad, single track, standard gauge, stone bed. [redacted] 25X1
2. Stream, six meters wide, four meters below ground level, fast.
3. Road, secondary, cobblestone, six meters wide, drainage ditches on one side only, approximately one meter deep.
4. Sawmill. Eszak Magyarorszag Fafeldolgozo Telepe. [redacted] this mill is the largest in Hungary. It produced telephone poles, railroad ties, and lumber of all sizes. [redacted] other products were produced too because of the size of the mill. There were two buildings in the area with a railroad spur running in between. The sawmill was located approximately 200 m. from main area. The largest building was three stories, of brick construction, 40 x 30 x 30 m. high. A water wheel was used for some power for the mill. [redacted] observed no large mounds of sawdust. Three chimneys were located on top of a small attached building, two stories high, and the area around the chimneys was covered with unidentifiable white powdered dust. [redacted] white smoke blown out. Adjacent to the chimneys was a water cooler, 10 m. high x 4 m. square, slightly tapered at the top, with two pipes leading to the building. A smaller single story building was across the RR tracks, of brick construction, 30 x 15 x 10 m., with a flat deck type roof and a smoke stack off center, 35 m. high, emitting black smoke. [redacted] this building was the main sawmill building. The main single track RR traveling north and south runs adjacent to the large building. [See Encl. B.] 25X1
5. Eger. Population: 10,000-12,000, no major factories. One large station, containing several large pump trucks, was located in the north part of Eger. 25X1
6. Ammunition storage depot. [redacted] 25X1
7. Railroad, single track, standard gauge, stone elevated bed, majority of traffic freight trains, loads unknown.
8. Bridge, steel construction, eight meters wide, two meters above stream.
9. Road, first class, eight meters wide, concrete, drainage ditches on both sides one meter deep.
10. Military camp. [redacted] 25X1
11. Political Police area, 400 x 200 m., containing two buildings. Larger building used for troops. Three stories, concrete construction, hipped roof. Smaller building built in September 1951, single story. [redacted] 1,200 Political Police were in the Eger area. 25X1
12. Vehicle parking area, 300 x 150 m., cement wall four meters high enclosed the area containing four buildings, 70 GAZ-63 trucks, four GAZ-67 type jeeps, two ZIS-151 type trucks, 14 four-wheel type weapon carriers. The area was guarded by 14-15 sentries, 24 hours a day on two-hour shifts.
13. Railroad, single track, stone bed, traveling north and south, runs past sawmill [Point #4].
14. Road, second class, cobblestone, eight meters wide, drainage ditch on one side one-half meter deep.
15. Roads, third class, cart paths, usually dirt, three meters wide, irregular, poor drainage, travel through woods to various farm plots.
16. Ammunition and rifle factory. [redacted] 25X1
17. Railroad junction, new spur built in 1951, stone bed, elevated one meter, standard gauge, led into ammo and gun factory area.
18. Bridge, reinforced concrete construction, same width as road [Point #3], over stream three meters wide and fast all year around. [redacted] RR bridge right next to this bridge is of wooden girder construction. 25X1
